How One Girl Was Remembered.

One of the older teachers at Mount Holyoke college remembers Miss Mary Wilkins, who was among the pupils for a year when she first came.

"I can't recall very much about her," she said in answer to eager questioning from some of the undergraduates. "She sat at my table, and it was her work as a freshman to remove the platters before dessert. She was very handy about that."

"Think," says the girl who tells this story, "of the wonderful Miss Wilkins borne in mind for nearly 20 years only for her handy way of taking a platter off the table."—New York Times.

The Present Prince Albert Coat.

Now, while there is such a deal said and written about women's clothes and whether hoopskirts are to have the innings, why not turn the masculine eye downward and take in the absurdity of the Prince Albert coat? This season it is long enough to serve as a real frock that could be "draped" with advantage or even worn to keep it out, as a crinoline advocate observes. Most men improve in their evening dress, conventional as it is, but long experience forbids me to say I ever saw Adonis in the style of coat bearing Wales' name as an excuse for being! Those who are not Adonises nor a royal personage are simply not in it, or rather they are, to their despatch and personal disadvantage. Pray, men, cry off from crinoline awhile and use your eloquence on the tailors, who certainly require regenerating in matters of taste and fitness of things.—Boston Globe.

Children Cry for Frier's Castoria.

HALE METHOD OF PAINLESS FILLING.

NEW DEPARTURE IN DENTISTRY!

DR. PORTER HAS RETURNED for the purpose of advertising the

"Hale Method of Painless Filling."

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

OFFICE IN STEELE BUILDING, COMMERCIAL ROW, RENO.

Here are a Few Testimonials from Citizens Who have Already Tried the Method:

Dr. Porter—DEAR SIR:—It affords me pleasure to say that the Hale method of painless filling opens a new era in the dental world. After having several very sensitive cavities filled by you with gold and amalgam with gratifying results, I am of the opinion that the method is far beyond competition. PATRICK HENRY.

Dr. Porter—DEAR SIR:—In answer to your request for my candid opinion as to the Hale method of painless filling, I beg to state that I went to one of Dr. Leek's finest operators in San Francisco, and he filled several teeth for me with more or less pain; but when he came to the one you have just filled, it was simply impossible for me to endure the torture, consequently I asked him to stop, which he did. I thought I would be obliged to have the tooth extracted. I wish to state that in five minutes after you commenced to operate there was positively no pain; it felt just as if you were cutting a piece of wood. I am so highly pleased with the manner in which you filled the tooth that I feel it but just to express my appreciation of the method. It is all you claim for it. CHARLES HOPE.

Dr. Porter—DEAR SIR:—I have had teeth extracted before by so-called painless methods, but you are the only operator who has extracted teeth for me without pain. Your method of extracting surpasses my most sanguine expectations. MRS. H. PRENTISS.

Dr. Porter—DEAR SIR:—It gives me great pleasure to state that I am thoroughly convinced of the excellence of your method. I expected to suffer dreadfully having the cavity filled, as it was the worst one I had to have done. In about five minutes after you began to work on it I was satisfied that it would not hurt, which it did not during the entire operation. The tooth you extracted is one I have been dreading for eight years, and after consulting dentists in Sacramento, who advised me not to have it removed, as the ordeal might prove injurious to my health and also disfigure my face. You extracted the tooth without a particle of pain, and I will have no further dread of the dental chair, providing I can obtain the Hale Method. MARY E. FLECKENSTEIN.

Dr. Porter—DEAR SIR:—After using Hale's Painless Method as administered by you in the extraction of teeth, I can bear testimony that the results are satisfactory, and that teeth can be extracted painless by said method. Respectfully yours, HENRY J. NEYLAND.

Dr. Porter—DEAR SIR:—I believe that the Hale Painless Method of filling is destined to lead the world in its special field of usefulness. I am particularly impressed with it, owing to the fact that one does not lose consciousness while having teeth filled, and at the same time does not suffer a particle of pain. You are at liberty to refer any one who contemplates having sensitive teeth filled to me. JOHN SHERITT.

The best alternative, diuretic and tonic properties are contained in Ayer's sarsaparilla.

Senator Rickley, of Ormsby, passed through yesterday, homeward bound from California.

Hon. Theodore Winters returned from a trip to the northern part of the county last evening.

The Reno orchestra will furnish the music for the Young Ladies' Institute ball in Carson to-morrow night.

The attendance at the world's fair yesterday was very light in consequence of the unfavorable weather.

"Spring chickens" are not always tender; but Ayer's Pills enable the stomach to digest the toughest meat.

Mrs. R. J. Laws and eldest daughter, arrived from Hawthorne last evening and changed cars for San Francisco.

Addard Dupuis, formerly of Carson, is to be married this week to a young lady of Chicago. So says a Carson exchange.

The Virginia Chronicle says Lizzie, a daughter of Mr. and Mrs. Richard Kirman, died in San Francisco night before last.

In China wealthy persons buy their coffins long before they need them, and exhibit them as ornamental pieces of furniture.

The Times-Review says it stormed all day Sunday in Tuscarora, and the ground was covered with snow May day morning.

It is announced that the Duke of Veragua's name is pronounced Verahrah. The Duke claims direct descent from Columbus.

Further damages from high water in the Mississippi and Ohio rivers are not apprehended. The rains have ceased and the waters have begun to fall.

C. N. Noteware of Carson has successfully undergone the operation in San Francisco of the removal of a gall stone and is in a fair way to recover.

Governor Flower of New York has declined to commute the sentence of Carlyle W. Harris, convicted of poisoning his young wife. Harris is to die next week.

Baldness is often preceded or accompanied by grayness of the hair. To prevent both baldness and grayness, use Hall's Hair Renewer, an honest remedy.

The Elko Independent says free coinage of silver, low freight and fares, and a system of irrigation would quadruple the population of Nevada in less than five years.

Charles Wurth, agent for the John Wieland Brewing Co. of San Francisco, and Tom Evans of the firm of Parry & Evans, departed for Carson yesterday morning.

The report of Director-General Davis shows that a grand total of nearly \$33,500,000 have been raised for the World's Fair, exclusive of the cost and value of the exhibits.

The women do not agree on the hoop question. Neither do they quarrel over it. The matter will be peacefully settled by the majority. The decision of the men folks will not figure in the business.

South Dakota dispatches say no seedling has yet been done though the prospects for a heavy crop are good and the wheat acreage will probably exceed that of last year.

The Chicago papers estimate on the scale of present prices that a temperate and economical man can get along in that city during the World's Fair on three dollars a day.

The Belmont Courier says the majority of the people of Eastern Nevada do not favor the Mormon scheme of annexing Utah to Nevada. This State is fully able to paddle her own canoe.

The directors of the Bank of Nevada elected the old officers, namely, M. D. Foley, president; M. E. Ward, vice president; R. S. Osborn, cashier; and C. C. Powning, L. A. Abrams and J. N. Evans, finance committee.

The bearer of a dispatch from Governor Russell, of Massachusetts, to Governor Altgeld, of Illinois, in the relay bicycle race from Boston to Chicago, reached Hudson, N. Y., at 8:30 o'clock Wednesday night, 2 hours and 32 minutes behind schedule time.

The report of the condition of the Bank of Nevada is published in the JOURNAL. That the people have confidence in the bank is proved by the deposits, which amount to about \$180,000, and that the bank has faith in the country is shown by the loans which amount to over \$300,000. The gross earnings for the year are over \$20,000, and the expenses \$2,134, showing the net earnings to have been over \$23,000, which speaks well for the management.

THE WORLD'S FAIR.

Gate Receipts Opening Day—The Rush Abates and There is Plenty of Room.

The special correspondent of the San Francisco Examiner gives the following information relative to the World's Fair: The Bureau of Admissions report Monday's attendance: Total number of persons who passed the gates was 286,130, of whom 121,130 presented pay daily tickets, 25,000 souvenir tickets, and 139,500 had passes. This would make the cash receipts represent about \$73,450. If every day be as good as Monday, the fair would take in about \$18,000,000 at the gate, or half a million more than was subscribed in stock and subsidy by Chicago. Then current expenses must be deducted, and they are enormous. The useless and ignominious Columbian Guard costs \$3,500 per day alone.

But the financial success of the fair does not depend on the gate receipts. All the special privileges except the photographing pay from 65 to 65 per cent of their receipts to the fair, and the income from that source will be enormous. Some of the specialties will be disappointed, because no matter how large the crowd, it will never be big enough to make business large for all of them. The restaurant man intends to get rich in a hurry. His prices are high, and Commissioner De Young told me to-day that the food supplied was the worst he had ever eaten. The \$125,000 peanut man is forced to sell his fruit ready shelled, and no one wants to buy peanuts when the pleasure of cracking them and throwing the shells on the ground is eliminated.

THE PROPHET'S BEARD MALIGNED. The barbaric tribes down Midway Plaisance, as it should be called, instead of Midway, are cursing the beard of the prophet and quarreling because trade is slack. As Mr. Levy, who manages the Turks, remarked: "What with Buffalo Bill outside and the big free shows inside the grounds there is very poor picking for us."

Still it is too early to speak of the success of anything. If the fair is a loss, Chicago need not care, for in South Chicago alone the assessed value of property has increased \$70,000,000 since the work began. The fair itself covers more than a square mile, and on five square miles around it a great city of 150,000 has arisen. The 110,000 employees' admission tickets taken in on Monday tell what the fair has done and is doing for Chicago.

The weather was fine to-day and the buildings, bright with bunting, looked beautiful, but the confusion inside of them is as great as it was a week ago. Nothing is complete. California is all right, save for the absence of a complete roof and exhibits.

THE RUSH ABATES. A strange thing has happened, and unexpectedly. The rush to Chicago has not only ceased, but there is a falling off in the numbers. The bad weather and the reports sent out of the backward state of the fair have kept people from coming. The swell and well-known hotels are full, of course, but the places put up for the occasion are empty. One house that got rid of all its regular boarders to secure big prices from World Fair trade is without a customer. There is oceans of room in the city, and, except in a few places that have the call, prices have adjusted themselves through competition. An agency reports 175,000 vacant rooms in hotels and lodging houses alone. The nice restaurants are busy, but are not overcrowded. The waiters had a strike to-day, and in some houses won, and in others lost. They demand \$3 per day in one class, and \$2.50 in another. Breslin of the Auditorium gave in at an early hour. The waiters say they felt that he was making money, and they wanted their share. He said he would give them \$6 a day if they would agree to punch all their tips and turn them over to him. They declined the offer.

LOOK OUT FOR A FLOOD. A Note of Warning to People Along the Truckee.

The Truckee Republican says it does not like to predict disasters, but the chances are that the Truckee river will be flooded, in the near future, so as to do great damage. Tahoe is now within four inches of the high water mark of last July. The gates are wide open but the lake continues to rise steadily and the waters will get higher and higher for ten weeks to come. There is an enormous body of snow on the surrounding mountains, ranging from four to six feet deep in most places. The mountains surrounding the entire Truckee basin are similarly covered, and nothing can prevent unusually high water, when the snow melts. If it goes off with a rush every dam on the river will be imperiled, and many of the bridges will be in danger. Donner Creek bridge is almost sure to go. Its approaches are low, and the bridge is old and weak. Millmen and ice companies would do well to strengthen their dams and take all possible precaution. The floods are almost certain for the ground is thoroughly saturated and a rain-storm or warm weather will bring an immense body of water down every hillside, ravine and stream.

Mrs. J. W. Mackay accompanied by her son left San Francisco yesterday for Chicago en route to London. She will visit the Fair and spend a few days in New York before shaking the dust of the United States off her slippers. Mr. Mackay will remain in San Francisco a while and visit the Comstock shortly.

ABSOLUTELY PURE

A FATAL KICK.

Hugh Mitchell Killed by a Playful Horse.

Hugh Mitchell, one of the hostlers at T. K. Hymer's livery stable, was killed about 5 o'clock yesterday afternoon by a kick of Gen. Powning's horse. Mitchell was leading the horse from the back door of the stable along second street and gave the animal too much rope. The horse, which is gentle, was in a playful mood, and pranced around as horses frequently do when out of a stable and given much headway. The horse kicked Mitchell in the right side, inflicting an injury which shortly afterwards proved fatal. Mr. Mitchell walked into the stable, called for assistance, and Dr. Mullen was called to attend him and pronounced the injury fatal.

Mr. Mitchell was conscious and recognized that the wound was fatal. He was removed to his room upstairs in the stable and expired within a few minutes. Four ribs on the right side were broken, in fact the whole side was crushed, and there were internal injuries. It was about fifteen minutes from the time of the fatal kick up to the time of the man's death. The body was removed to the coroner's office where it now lies. It is probable that no inquest will be held.

Mr. Mitchell was an old resident of the state, having worked for Derby & Gebhart in Virginia City many years, and had been in the employ of Mr. Hymer's for some months past. He was a native of Scotland, about 54 years of age, and unmarried.

A LOTTERY SUE.

The Little Louisiana Accused of Sharp Practice.

George Williams of Sacramento thinks his confidence has been abused by Louis Schoenberg, Louis Metzger and Julius L. Franklin, copartners in business under the title of Little Louisiana Lottery Company of San Francisco. Williams was a holder of one of the company's coupons, of ticket 41,206 and was entitled to one-fourth of any prize which that number might win in the drawing of the Louisiana State Lottery at New Orleans on April 11th. The ticket of that number drew \$15,000, and entitled Williams to collect on his Little Louisiana ticket of the same number \$3,750. He presented his ticket at the company's office, expecting to get the entire amount. Williams now complains that payment was refused, and says he was asked to accept \$1,000 in full satisfaction of his claim. This he refused to do, and the sequel is a suit which was filed yesterday against Metzger, Schoenberg and Franklin to recover \$3,750, the full amount for which the ticket called. The plaintiff is Charles A. Tait, an attorney, to whom Williams has assigned the ticket for collection. His suit is the first of the kind ever filed here.—S. F. Chronicle.

Carmenita a Mass of Brilliance.

Carmenita's forthcoming appearance at the opera house on Wednesday night next, May 10th, set many folks talking about her exquisite costumes, about which so much has been written. Carmenita spends quite a fortune on her costumes and carries with her no less than nine enormous trunks containing her costly toilettes and Spanish laces and jewelry. The laces are of great value and were gifts of grandees of Spain. Her diamonds are of the most beautiful and varied in size; indeed it is said that when Carmenita trips on the stage she is one mass of brilliancy.

An amusing story comes from Logan, Utah. The Journal of that city recently published a large portrait of Abraham Lincoln, together with an account of his assassination, which occurred many years ago. A copy of the paper was left on the door-step of one Logan home. A small boy picked up the paper, glanced at the portrait and head lines, then running to his mother, exclaimed: "Oh, ma, President Lincoln is shot!" "Served him right; he is the man who tried to down polygamy," replied the wise mother, and she proceeded to do her household work.

The Silver State says Winnemucca looks as it did before silver was demoted. Alex. Wise's, Peter Bask's and Chris. Diehl's teams started for Central district to haul ore and extended a quarter of a mile along Bridge street. They go to haul ore from the Blackbird mine to the new mill.

Attention Co. C.

Officers and members of Co. C are hereby ordered to attend drill on every Monday and Wednesday at 8 P. M. until Memorial Day. By order

A. C. HELMOLD, Captain.

THE CARSON FIGHT.

The White Man Wins in the Principal Event.

The JOURNAL's special correspondent furnishes the following account of the fistie encounter at Carson last night: The Carson opera house was comfortably filled, about seventy people from Reno and forty from the Comstock and a large number of the Carson sport lovers being present.

THE PRELIMINARIES. The exhibition commenced with a lively and amusing four-round go between Millen and Beals, two local scrappers. The general verdict at the close of the bout was that both got the best of it, as a number of half dollars and dollars were thrown upon the stage by men in the audience. Next came a four-round bout between Geo. Allen, of Australia, and Frank Purcell, of Salt Lake. Allen, who was suffering from a cold, was in no condition to enter the ring, but nevertheless a lively exhibition resulted. At the end of the bout more half dollars were thrown on the stage.

THE CHIEF EVENT. And now came the event of the evening, the contest between "Soldier" Walker, (white) and "Sacramento" Turner, (colored) for a purse of \$500. They entered the ring at 11:10, Turner weighing 190 and his antagonist 178.

Walker was the favorite in the betting. Tom McCormack, of Reno, was chosen referee, Tim Dempsey, of Carson, and Dan O'Keefe, of Reno, time keepers. Walker's seconds were Matt Brannan and Purcell, and Turner's were Allen and Harris.

Round 1—Cautious opening with a few vigorous exchanges.

Round 2—About the same.

Round 3—Turner got in a good lick on Walker's jaw and neck.

Round 4—A few vigorous hits. Honors easy and nobody hurt.

Round 5—Turner got in a good blow on Walker's jaw for a starter, followed by a pretty fair body blow. Walker returned vigorously on Turner's neck.

Round 6—Walker got in a good blow on Turner's neck. Nobody badly hurt.

Round 7—Walker got in a good upper cut, but there was little else done in this round.

Round 8—Lively exchanges of body blows. Honors easy.

Round 9—Good general exchanges, but neither had the best of it.

Round 10—About the same.

Round 11—The hardest hitting was in favor of Turner.

Round 12—Honors easy, neither hurt or badly winded.

Round 13—In this round there was some lively fighting.

Round 14—Vigorous exchanges, with Turner having a little the best of it.

Round 15—This was the last and decisive round. Wild and lively fighting with Turner going down and unable to get up. He was carried to his corner, and Walker was declared the winner.

Will Not Comment on Penney's Reply. Special to the JOURNAL.

WASHINGTON, May 4.—Secretary Gresham reaffirmed today his statement that he sent telegrams to the governors of the western states asking them to take precautions against violence to Chinese when the exclusion act takes effect. He did not care to state how many or what governors had been asked to take action, but said the text of the dispatch over his signature given out for publication by governor Penney, of Oregon, was correct.

The Secretary declined to comment on the answer sent him by governor Penney. "The telegrams speak for themselves," he said. I sent a perfectly respectful message to governor Penney and received in reply the dispatch which has been given to the press. Representations were made to the department that violence might be done Chinese subjects when the law went into effect and the dispatches were sent as precautionary measures. I do not believe there is any prospect of trouble, but the dispatches were sent nevertheless to allay apprehension."

Attention Co. C.

Officers and members of Co. C are hereby ordered to attend drill on every Monday and Wednesday at 8 P. M. until Memorial Day. By order

A. C. HELMOLD, Captain.

Ladies, Attention! For immediate relief use Meamin's French Female Pills. Sold by McCullough.

A cyclone cut a swath 400 yards wide through the town of Oxford, North Carolina yesterday, injuring a dozen persons and destroying several buildings.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

NEW TO-DAY.

TOWN ORDINANCE NO. 38
—OF THE—
TOWN OF RENO, WASHOE COUNTY, NEV.
(Adopted May 1, 1893.)

AN ORDINANCE DEFINING THE FIRE limits of the town of Reno, and making regulations concerning the erection and use of buildings in said town.

By virtue of the power conferred by the laws of the state of Nevada the board of county commissioners in and for Washoe county do ordain:

Section 1. The fire limits of Reno shall be bounded as follows, to-wit: By a line commencing at the center of the intersection of West street and the alley situated between Third and Fourth streets; thence running easterly with the center of said alley to the center of the intersection of said alley and Sierra street; thence northerly with the center of Sierra street to the center of the intersection of Third street and the alley between the plaza and Fourth street; thence easterly with the center of said alley to the center of the intersection of said alley and Kaye street; thence southerly with the center of Kaye street to the Truckee river; thence westerly with the meanders of said river to a point which would be reached by the center line of West street extended southerly to said river; thence northerly with the center of West street to the place of beginning.

Section 2. All buildings and structures of whatever nature hereafter erected within the said fire limits shall be made and constructed of brick, stone or iron, or of a combination of these materials, that shall be newly roofed or covered shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building; and said roof shall be covered with such material as will afford protection against fire; and said walls shall be so constructed as to separate all woodwork thoroughly and completely from the walls of the building, so that no part of the interior or exterior of the building shall be in contact with wood of any kind; and every such side wall or party wall shall be constructed with blue walls or party walls of brick or stone, or both, and such side walls and party walls shall extend from the foundation to the top and through the roof of the building;
